

I'm Christos the 20yo webmaster responsible for this wood-glued site

This is my trench for when friends bathe in public fountains

I like the following: 9front/plan9, ergonomics, fermentation, hunting weapons, iconography, nutrition, raw meat,

This site is generated by werc, with apps by risingthumb and I, on Debian running Apache2

To-do list

Study werc app 'dirdir', write shell for:

- file rename, +
- move file location
- print (.md to .pdf)
- export cwd as zip

Might be trickier

- edit and view '___' files
- create comprehensive werc guide for debian and openbsd

Think about how to do tagging effectively for goralog based on .meta files

Dye and mend clothes

- Buy dye at good price

Download videos and burn to disc and USB
